The Modern Aluminum Collection combines glass and aluminum for unparalleled visual appeal, strength and light infiltration. It’s a unique solution for your extraordinary home.

Built better from the inside out

* Offered on non-wind loaded doors only. Size restrictions may apply. See your Overhead Door Distributor for details.

The Genuine. The Original.
Since 1921, Overhead Door Corporation has not only raised the standards of excellence for the industry—we’ve created them. Overhead Door created the first upward-acting door in 1921 and the first electric garage door opener in 1926. Today, our network of over 400 Overhead Door Distributors are still leading the way with innovative solutions and unmatched installation, service and support. So look for the Red Ribbon. It’s your guarantee that you’re getting the genuine, the original Overhead Door.

Modern Aluminum Collection doors present contemporary elegance with sleek lines while delivering maximum light infiltration into the garage space.
The Modern Aluminum Collection combines glass and aluminum for unparalleled visual appeal, strength and light infiltration. It’s a unique solution for your extraordinary home.

Built better from the inside out

Design flexibility
Available in a variety of vertical rail widths and horizontal stile widths to complement the style of your home.

Wind load-rated doors.
Model 521 can be built to meet local building codes and provide your home with protection from a variety of wind conditions, such as hurricane force winds. Overhead Door now has Florida Building Code Static and Impact approvals on our best-selling Modern Aluminum Model 521 featuring unobstructed views with no reinforcement struts running across the sections. Tough polycarbonate glazing is also available in clear for commercial needs or frosted for residential applications.

Model 521 Heavy-duty frame

Crisp lines and sleek design formed from durable corrosion-resistant aluminum and light-filtering glass.

Commercial-grade aluminum frame
Low-maintenance and corrosion-resistant.

Integrated stiffening struts*
Strong, light-weight struts are included in the design of the rail assembly to enhance durability.

Design flexibility
Available in a variety of vertical rail widths and horizontal stile widths to complement the style of your home.

Finished hardware
Hinges and fixtures are galvanized to maintain a contemporary look.

The Genuine. The Original.
Since 1921, Overhead Door Corporation has not only raised the standards of excellence for the industry—we’ve created them. Overhead Door created the first upward-acting door in 1921 and the first electric garage door opener in 1926. Today, our network of over 400 Overhead Door Distributors are still leading the way with innovative solutions and unmatched installation, service and support. So look for the Red Ribbon. It’s your guarantee that you’re getting the genuine, the original Overhead Door.

Transform Your Home with the DoorView visualization tool.
