**FOR IMMEDIATE RELEASE:**

May 10, 2011

**OVERHEAD DOOR ANNOUNCES BIM MODELS FOR COMMERCIAL PRODUCT OFFERING**  
*Comprehensive Commercial Product Line Models Available Online*

**DALLAS** (May 10, 2011) – Overhead Door Corporation, the nation’s leading manufacturer of overhead doors and openers for residential, commercial and industrial construction applications, announced today the expansion of product resources available to building design professionals via Building Information Modeling (BIM) objects for its entire commercial product offering. These BIM objects can now be accessed online from [www.overheaddoor.com](http://www.overheaddoor.com) and [www.arcat.com](http://www.arcat.com).

Overhead Door’s BIM library includes BIM objects for: commercial sectional doors, rolling doors, rolling counter doors, fire-rated doors and counter doors, security grilles and commercial operators. These objects will be a great resource for architects, specifiers and construction professionals incorporating commercial overhead door systems into their building design projects. Overhead Door’s BIM library is located at <http://www.overheaddoor.com/ArchitectsCorner/Pages/view-all-bim-objects.aspx> and allows architects and building design professionals to download BIM models for use with building design software.

BIM aids many architects and building design professionals throughout the design process by increasing productivity, improving visualization, reducing mistakes, providing significant cost savings and expediting project delivery. “We’re pleased to have category-leading products and product resources available to building design professionals,” said Jennifer Malcuit, Overhead Door brand manager. “This new resource will allow them to integrate our products into their design processes with ease, accuracy and efficiency.”

For more information on these products and resources, please visit [www.OverheadDoor.com](http://www.OverheadDoor.com)

**About Overhead Door Corporation**

Overhead Door Corporation, based in Dallas, Texas, is a leading manufacturer of doors and openers for residential, commercial, industrial and transportation applications. There are three divisions of the company, including the Access Systems Division (ASD), the largest, which features the Overhead Door, Wayne-Dalton and Genie brands; Horton Automatics, which includes automatic entrance systems; and TODCO, the largest producer of truck doors for the transportation industry. Overhead Door Corporation created the original overhead garage door in 1921 and the first electric garage door opener in 1926. It now has over 3,500 employees, 24 manufacturing facilities, 79 regional sales centers and over 6,000 distributors and dealers that service national builders, national accounts, architects, general contractors and homeowners, as well as major retailers in the U.S. and Canada. Overhead Door Corporation is a subsidiary of Sanwa Holdings Corporation of Tokyo, Japan. For additional information, visit [www.overheaddoor.com](http://www.overheaddoor.com).
