## FOR IMMEDIATE RELEASE

### OVERHEAD DOOR LEADS INDUSTRY WITH NEW THREE-YEAR/ 20,000 CYCLE LIMITED WARRANTY

*Warranty Covers New Rolling and Sectional Doors and Operator Systems*

**DALLAS** (January 31, 2012) – Overhead Door Corporation, the nation's leading manufacturer of doors and operators for residential, commercial and industrial construction applications, announces an industry-leading warranty coverage of three-years/ 20,000 cycles for *new* commercial door and operator systems purchased and installed together.

Overhead Door is the only manufacturer in the industry that provides its customers with a single source for both doors and operators. By offering an extended warranty for these systems\*, the company is standing behind the quality of its products and providing architects, contractors and facility owners with a unique competitive advantage, as the industry standard is a one-year limited warranty on doors and two-year limited warranty on operators.

"Architects and end-users are always looking for value-add options," said Karen Cohen, Senior Product Manager, Commercial Doors at Overhead Door Corporation. "This extended warranty provides value in two ways – the extended warranty itself and also the benefit of purchasing or specifying a 'door system' – where both door and operator are manufactured by the same company."

Door and operator models covered by the new warranty include:

- **Commercial Sectional Door and Operator System**
  - Doors: Thermacore® Series 591, 592, 593, 594, 596, 598 or 599
  - Operators: RSX®, RMX® and RHX®
- **Commercial Rolling Service Door and Operator System**
  - Doors: 600, 610, 620, 625 (insulated)
  - Operators: RSX®, RMX® and RHX®
- **Commercial Rolling Fire Door and Operator System**
  - Doors: FireKing® Fire Doors: 630, 631, 634, 635 (insulated)
  - Operator: RHX®

To qualify for the [new warranty certificates](#), commercial doors and operators **must** be purchased and installed together as a complete system. Overhead Door provides this warranty on all parts and components of its new systems, with the exception of the counterbalance and finish.

For more information, use the [distributor locator](#) to contact an authorized distributor near you or visit [Overhead Door](#) online.

#### **About Overhead Door Corporation**

Overhead Door Corporation, based in Dallas, Texas, is a leading manufacturer of doors and openers for residential, commercial, industrial and transportation applications.
