**OVERHEAD DOOR ANNOUNCES PARTICIPATION IN
INTERNATIONAL BUILDERS SHOW NEXTGEN HOME**

DALLAS – Overhead Door Corporation, the nation’s leading manufacturer of upward-acting doors and openers for residential, commercial and industrial construction applications, is proud to announce its participation in this year’s International Builders’ Show NextGen Home. The home meets the standards of the Fortified... for safer living[®] program of the Institute for Business & Home Safety and offers the latest in digital living home control as well as utilizes green products that deliver energy efficient benefits.

The NextGen Home will feature Overhead Door’s Courtyard Collection insulated custom steel carriage house style garage door paired with the Legacy[®] garage door opener, both adding beauty and energy efficiency to the home. The Courtyard Collection is designed to provide homeowners with a broader choice of styles to complement the architecture of their home at a significantly lower cost than custom wood doors. Its patented Thermacore[®] construction and polyurethane insulation offer excellent thermal efficiency with R-value of 12.76. A Heavy-duty commercial track and hardware ensure long life and reliable performance.

Homeowners seeking major curb appeal will find many options in the Courtyard Collection, which offers 18 classic designs to provide homes with unsurpassed beauty, durable construction and thermal efficiency. Doors are finished in white with a distinctive wood-grain texture and can be painted with latex paint colors for even more customization.

About Overhead Door Corporation

Overhead Door Corporation, based in Dallas, Texas, is the nation's leading manufacturer of upward-acting doors and openers for residential, commercial and industrial construction applications. There are three divisions of the company including the Access Systems Division (ASD), the largest, which features the Overhead Door, and Genie® brands; Horton Automatics™, which includes automatic entrance systems; and TODCO®, the largest producer of upward-acting doors for the transportation industry worldwide. Overhead Door created the original upward-lifting garage door in 1921 and the first garage door opener in 1926. Overhead Door Corporation is a subsidiary of Sanwa Shutter Corporation of Tokyo, Japan.
