Standard Features

CodeDodger® Access Security System

Each time the remote control is activated a new access code is selected from 4.3 billion possible combinations to prevent piracy of the radio signal that opens your door. The system works with up to seven remotes for one door.

Frequency Range

Reliable frequency range to ensure consistent operation.

Self-diagnostic Safe-T-Beam® System

When objects pass through the infrared beam, the door automatically stops closing, and then reverses. The system's self-diagnostic functions alert homeowners of improper operations, pinpoint specific problems and help identify solutions.

Light System

Illuminate your garage with our built-in 2-bulb light system.

Deluxe Wall Console — 950

Features a security vacation lock and an independent light control with energy saving shut-off.
