Overhead Door™ Brand Brings Innovative Springless Design to the Sectional Garage Door Category with EverServe™ Aluminum Glass Door Model 521s

The full-view aesthetic provided by the EverServe™ platform allows for maximum light infiltration, truly illuminating any commercial space

September 14, 2022 - Overhead Door™ Brand, a leading manufacturer of residential and commercial door solutions, has launched the new EverServe™ Aluminum Glass Door model 521s, a sectional door that provides maximum light infiltration and an innovative springless design within sectional platform. The Model 521s is a premier solution for commercial and industrial applications where visuals, high-cycle and performance are key design considerations.

“EverServe™ Aluminum Glass Door Model 521s is low maintenance without sacrificing functionality or design, allowing clients to seamlessly frame a space that showcases merchandise and invites people in,” said Moses Colunga, Product Manager for Overhead Door™ Rolling Steel Doors. “By providing a practical, aesthetically pleasing and durable sectional door that will fulfill a variety of business owners’ needs, Overhead Door™ Brand continues to build upon its century-long commitment to engineering leading technology solutions for the garage door industry.”

This aluminum framed door combines the high cycle life and reliable operation from the EverServe™ platform with the full-view aesthetics of commercial aluminum. From its springless design which eliminates the need for a counterbalance, to it being 30x standard sectional door

with a 300,000 cycle life and more, Model 521s is highly functional, offering minimal downtime and enhanced productivity. The universal components, floor-level controller and direct drive integrated gear, motor and brake assembly further facilitate ease of operation and maintenance of the door. Additionally, Model 521s features a built-in braking mechanism that provides additional peace of mind against uncontrolled curtain travel.

Available in sizes up to 18 feet one inch by 20 feet two inches, business owners can customize Model 251s with various glass options available and multiple finishes, including clear (standard), light bronze, medium bronze and dark bronze.
