PAINTING INSTRUCTIONS

Surface Preparation for Painting

Wax on the surface must be removed or paint/priming will fail. To remove the wax, it will be necessary to lightly scuff the surface with a fine steel wool pad saturated with soapy water. A final wipe and rinse should be done with clean water only to remove the soapy residue, and any loose wax film residue. Surfaces, scratches, which have not exposed the metal substrate, can be lightly buffed or sanded with 600 mesh steel wool or no. 40 sandpaper to create a smooth finish. Care must be taken not to expose the substrate under the paint. Once the substrate is exposed, the likelihood for rusting is greatly increased. If substrate is exposed, it must be treated to prevent rust from forming. Sand the exposed area lightly and prime with a high-quality metal primer specifically intended for galvanized surfaces to protect the area from corrosion. Allow drying times on primer label before applying topcoat. The surface of the substrate is the painted finish, that is being painted, must not be too smooth, or the paint will not adhere to it. It is advisable to test in an inconspicuous area, to evaluate adhesion. If poor adhesion is observed, surface preparation for painting the facts applied against substrate must be removed. After priming, the substrate should be allowed to dry completely. Primes may be applied to the substrate prior to painting. After surface has been properly prepared, it must be allowed to dry thoroughly, and then coated immediately with premium quality latex paint. Follow paint label directions explicitly. Oil base or solvent base paints are not recommended. Please note that if substrates is exposed and not properly primed, painting with take paint may cause accelerated rusting of the steel in the exposed area.

NOTES:
1. No priming of finish painted steel doors is warranted, as this condition is totally beyond the door manufacturer’s control.
2. Consult a professional coatings contractor if in doubt about any of the above directions.
3. Follow directions explicitly on the paint container label for appropriate applications of coatings and disposal of containers. Pay particular attention to acceptable weather and temperature conditions under which to paint.

SAFETY INFORMATION

OVERVIEW OF POTENTIAL HAZARDS READ THIS SAFETY INFORMATION CONVERSIONS USED IN THESE INSTRUCTIONS

DRIVE INSTRUCTIONS

MACHINES DEVICES REQUIRE PERIODIC SERVICE AND MAINTENANCE, AND GARAGE DOORS ARE NO-EXCEPTION. THE AMOUNT AND FREQUENCY OF PREVENTIVE MAINTENANCE REQUIRED DEPENDS ON THE LOCAL ENVIRONMENT CONDITIONS AND THE FREQUENCY OF USE, AND IS THEREFORE MAINTENANCE SHOULD BE PERFORMED AT LEAST ONCE PER MONTH, HOWEVER MORE MAINTENANCE MAY BE REQUIRED IF CONDITIONS WARRANT. MAINTENANCE INCLUDES LUBRICATION OF MOVING PARTS AND INSPECTION OF SELECT COMPONENTS FOR TIGHTNESS. THE FOLLOWING MAINTENANCE AND INSPECTION PROCEDURES MAY BE ESTABLISHED UNTIL ACTUAL OPERATING CONDITIONS DICTATE OTHERWISE.

Door Tracks

Doors tracks keep free of oil or grease so rollers move freely. Grease attracts dirt and dust which builds up and keep door from opening properly.

LIGHTLY OIL: Hinge Points, Steel Roller (bearings) and Inner race assembly (thin metal rollers do not require lubrication). Lubricate the moving parts, Torsion Spring (linked bearing surfaces), tone tube, and spring coil surfaces. Lubrication reduces wear and friction. A 30w or other medium weight oil is satisfactory. Wipe off excess oil from door and track surfaces.

Hardware Inspection
Close and lock the door. Inspect the hardware, stop plates, hinges, top-fixtures, locking devices, and track brackets to make sure they are securely attached. Tighten fasteners as necessary. DO NOT over tighten, excess tightening may strip the threads and make the bolt useless.

WARNING
DO NOT TRY TO REMOVE, INSTALL, REPAIR OR ADJUST SPRINGS OR ANYTHING TO WHICH DOOR SPRING PARTS ARE FASTENED, SUCH AS, WOOD BLOCKS, STEEL BRACKETS, CABLES OR OTHER LIKE ITEMS. INSTALLATIONS, REPAIRS AND ADJUSTMENTS MUST BE DONE BY A TRAINED DOOR SYSTEM TECHNICIAN USING PROPER TOOLS AND INSTRUCTIONS.

Cable Inspection
Inspect the cables. The cables should be tight and secured to the bottom fixtures. The cables should not rub against the door track or any other objects. Cables with frayed or broken strands should be replaced by a trained door system technician.

Counterbalance Lift Cable Assemblies

WARNING
BOTTOM CORNER BRACKETS, TORSION SPRING(S), COUNTERBALANCE LIFT CABLES, DRUMS, PULLEYS, SHAFTS, AND BRACKETS ARE UNDER HIGH SPRING TENSION. DO NOT ATTEMPT TO REPAIR, ADJUST OR REMOVE ANY OF THESE ITEMS. CALL A TRAINED DOOR SYSTEM TECHNICIAN.

Broken or Slipped Cable
If a cable breaks, or cable slips off a torsion spring drum, the door may cock or wedge into the tracks. DO NOT continue to use the door. DO NOT attempt repairs. Call a trained door system technician to repair the door.

Broken Spring
If a spring breaks, the door will not be counterbalanced and may fall if opened. DO NOT continue to use the door. DO NOT attempt repairs. Call a trained door system technician to repair the door.

Overhead Door Corporation Limited Warranty

Overhead Door Corporation ("Seller") warrants to the original purchaser of the Models 5745 / 5765 (900 Series) Thermacore® Collection Windstorm™ Garage Door Limited Warranty

Thermacore® Collection Windstorm™ Garage Door Limited Warranty

Overhead Door Corporation ("Seller") warrants to the original purchaser of the Models 5745 / 5765 (900 Series) Thermacore® Collection Windstorm ("Product"), subject to all of the terms and conditions herein, that the Product and all components thereof will be free from defects in materials and workmanship for the following periods of time, measured from the date of installation:

• Limited Lifetime Warranty® on the Product sections against:
  - The product becoming inoperable due to rust-through of the steel skin from the core of the Product section, due to crack- ing, splitting, or other deterioration of the steel skin, or due to structural failure caused by separation or degradation of the foam insulation.
  - Peeling of the original paint as a result of a defect in the original paint or in the application of the original paint coating on standard paint colors (exclusive of Walnut or Golden Oak wood grain finishes).

• ONE (1) YEAR on those component parts of the Product not covered by the preceding provisions of this Warranty.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This warranty is made to the original purchaser of the Product only, and is not transferable or assignable. This warranty applies only to Product installed in a residential or other non-commercial application. It does not cover any Product installed in commercial or industrial building applications. This warranty does not apply to any unauthorized alteration or repair of the Product, or to any Product or component thereof which has been damaged or deteriorated due to misuse, negligent, accidental, failure to provide necessary maintenance, normal wear and tear, acts of God, or any other cause beyond the reasonable control of Seller or as a result of having been exposed to toxic or abrasive environments, including blowing sand, salt water, salt spray and toxic chemicals and fumes.

Products with Black, Dark Brown or Wood Grain finishes are susceptible to thermal bowing as described in DANA (Door & Access Systems Manufacturers Association) Technical Data Sheet 191. Seller does not warrant Products with those finishes against warping, splitting or other issues associated with thermal bowing and strongly recommends against selecting such finishes for products which are to be installed in areas that experience high heat and/or high UV conditions, such as the Southwest United States, Central America, and the Middle East.

ALL EXPRESS AND IMPLIED WARRANTIES FOR THE PRODUCT, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN TIME TO THE APPLICABLE WARRANTY PERIOD REFLECTED ABOVE. NO WARRANTIES, WHETHER EXPRESS OR IMPLIED, WILL APPLY AFTER THE LIMITED WARRANTY PERIOD HAS EXPIRED. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. IN NO EVENT SHALL SELLER BE RESPONSIBLE FOR, OR LIABLE TO ANY PARTY FOR, SPECIAL, INDIRECT, INCIDENTAL, PUNITIVE, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, even if Seller has been advised of the possibility of such damages. Such excluded damages include, but are not limited to, loss of use, cost of any substitute product, or other similar indirect financial loss. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

Claims under this warranty must be made promptly after discovery, within the applicable warranty period, and in writing to the authorized distributor or installer whose name and address appear below. The purchaser must allow Seller a reasonable opportunity to inspect any Product claimed to be defective prior to removal or any alteration of its condition. Proof of the purchase, or installation date, and identification as the original purchaser, may be required. There are no established informal dispute resolution procedures of the type described in the Magnuson-Moss Warranty Act.

EXPIRED. Some states do not allow limitations on how long an implied warranty lasts, so the above limitation or exclusion may not apply to you.

Claimant’s obligation under this warranty is specifically limited to repairing or replacing, at its option, any part which is deter- mined by Seller to be defective during the applicable warranty period. Any labor charges are excluded and will be the responsibility of the purchaser. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. This warranty is made to the original purchaser of the Product only, and is not transferable or assignable. This warranty applies only to Product installed in a residential or other non-commercial application. It does not cover any Product installed in commercial or industrial building applications. This warranty does not apply to any unauthorized alteration or repair of the Product, or to any Product or component thereof which has been damaged or deteriorated due to misuse, negligent, accident, failure to provide necessary maintenance, normal wear and tear, acts of God, or any other cause beyond the reasonable control of Seller or as a result of having been exposed to toxic or abrasive environments, including blowing sand, salt water, salt spray and toxic chemicals and fumes.
