The Genuine. The Original.

Standard features

DC motor technology

Our most powerful motor delivers 140V quietly.

CodeDodger® access security system

The latest in CodeDodger® technology that selects a code from billions of combinations each time a remote or wireless keypad are used. Prevents piracy of the radio signal for the utmost in security.

Speed

Maximum opening speed of up to 9 inches per second.
(+/-0.5 inches per second. Speed will slow with one-piece doors).

Quiet operation

Belt or chain drive provide smooth and quiet operation, perfect for room adjacent garages that demand minimal noise. Belt drive offers the ultimate in quiet.

Auto seek dual frequency range

The opener listens for both the 315 or 390 MHz frequency emitted by the remote or wireless keypad, allowing reliable operation even in areas with frequency interference.

DoorDetect™ monitoring and diagnostic system

Delivers the optimal amount of power needed to efficiently and smoothly open even the heaviest doors. Stops the door when abnormal operation is detected for additional safety.

Self-diagnostic Safe-T-Beam® system

When objects pass through the infrared beam, the door automatically stops closing and then reverses.

Two-bulb light system with motion detection

Two 100 Watt bulb lighting system with integrated motion detector provides convenience and security. Optional Overhead Door® LED bulb recommended.

Compatible with both HomeLink® and Car2U® systems

† These accessories are only available for use with Odyssey® and Destiny® garage door openers.

§ The Overhead Door® Network Adapter (37350S) is required for operation of the Door Report Remote.
