Innovative features.
Easy programming.
Universal rail systems.

The Genuine. The Original.

OVERHEAD DOOR®

OHD ANYWHERE
SMART DEVICE ENABLED GARAGE DOOR CONTROLLER

The OHD Anywhere® system allows you to control and monitor your sectional garage door from almost anywhere. Controlled through the free app on Google Play or Apple App Store®, this technology is available as an integrated feature in certain Overhead Door® garage door openers or as an external kit. The kit allows homeowners to retrofit any Overhead Door® opener or most other brands made after 1993 with functioning safety photo eyes. It comes equipped with extensive time-based rules and notification features, allowing account holders to easily customize based on their needs and manage accessibility for each add-on user.

Product features

- Control and monitor the state of your garage door from anywhere with your smart device
  - Compatible with most iOS and Android mobile devices
  - Allows monitoring through the OHD Anywhere® app as to whether the door is opened or closed by the opener

- Remote access control system with fast and easy set-up

- Ability to know if an authorized user is operating the door with the OHD Anywhere® app
  - Maintains access history report for each opener

- UL 325 compliant – audible and visual signals before door moves when operated from smart device

- Use the OHD Anywhere® app to control any combination of 20 different Overhead Door® Wi-Fi integrated garage door openers or external OHD Anywhere® kits

Virtual keys

- Create a virtual key to grant temporary or permanent access to relatives, friends, or service workers – up to 20 total users

Time-based features

- Set the door to automatically close at a specific time each day

- Program to automatically close the garage door after a set time frame of continuously being open

Note

External kit compatible with all Overhead Door® and most other residential garage door opener brands that use photo-eye sensors. Visit **overheaddoor.com/ohdanywhere** for compatibility details.

LIGHT BULBS

Garage door opener LED bulb

Common LED and CFL bulbs can emit interference to limit the range of garage door remotes. Incandescent light bulbs, which are being phased out due to energy inefficiency, can have their lives shortened by vibration associated with opener operation. The Overhead Door™ LED bulb solves these and other problems to ensure the garage door opener light doesn't leave your garage in the dark!

40656R

25,000 hour life

Cold weather tested

Damp location rated

REMOTES AND CONTROLLERS

3-Button Remote Visor/Keychain Style

This remote with auto-seek dual frequency (315/390 MHz) allows you to operate up to 3 openers. It comes with a visor clip and can be used with a key ring. Backward compatible with all CodeDodger® equipped Overhead Door® openers.

37219R

1-Button Remote Visor/Keychain Style

If the remote only needs to operate one opener, you may want our simple, easy-to-use one-button remote. Also features auto-seek dual frequency. Backward compatible with all CodeDodger® equipped Overhead Door® openers.

38502R

OHD Anywhere® Retrofit Kit

Remotely monitor and control your garage door from almost anywhere with your smart device. Check door status and take advantage of time based features and virtual keys for added peace-of-mind and control.

39394R

Multiple Visor Style Remote Options

These remotes feature large buttons with great tactile feel and a clearly visible LED. Multi-directional visor clip lets you decide how the remote will fit on the visor. These remotes use auto-seek dual frequency and are backwards compatible with all CodeDodger® equipped Overhead Door® openers.

41539U

41539T

41539S

41539R

California Residents:
As required by California State Law SB-969, all newly installed openers must have battery backup as of 07/01/2019.

Wireless Wall Console

Absolutely no wiring required for operation! No need to have an additional wired wall console. The delay button allows a user an extra 10 to 30 seconds to exit before the door begins to move. Works with most Overhead Door® CodeDodger® equipped openers manufactured since 2013. Not compatible with Legacy® 800 Model 2026 and Standard Drive® 600 Model 1026.

39903R

Multi-function Wired Wall Console

Featuring large push buttons for easy operation, this wired wall console also has our Sure-Lock™ button to disable the remotes and keypad for extra security at night or while away from home.

39166R

Digital Wireless Keypad

The wireless keypad provides convenient and secure garage access without the need for a remote or key. This is an ideal secure access solution for kids returning from school, when working on exterior home projects or when going out for a jog. Also uses auto-seek dual frequency. (315/390 MHz)

Choose a color for the flip-up cover that best complements your home.

| White 37227R | Gray 37227S | Tan 37227T | Almond 37227U |

37225R

4-Button Universal Remote

This 4-button universal remote works with most major garage door openers and gate receiver brands in the industry! Each button can be programmed individually of the others to multiple manufacturer combinations. Visor clip or key chain option inside every box.

40660R

Universal Wireless Wall Console

Controls multiple openers from a variety of manufacturers on a single wireless console. Works with most major rolling and fixed code brands in the USA. Easy programming modes and absolutely no wires required for operation.

41552R

Universal Wireless Keypad

Works with most major rolling and fixed code brands sold in the USA. Control three different garage door openers with a single PIN.

Keypad comes standard in White and is compatible with optional lids in Almond, Gray and Tan.

41250R

Battery Backup Options

Our battery backup options provide reliable operation when there is a power outage.

Look for the Red Ribbon™

It's your guarantee that you're getting the best, from the brand that's been setting the standard for over a century.

Model 5740, Flush panel, Medium Oak Plank finish, Clear Long windows

The Genuine. The Original.

Since 1921, Overhead Door™ Brand has not only raised the standards of excellence for the garage door industry – we've created them. We pioneered the first sectional garage door and the first electric garage door opener, setting the bar for innovation and quality. Today, with a network of over 400 trusted Distributors, we continue to lead the way with cutting-edge solutions and unmatched service. When you choose Overhead Door™ Brand, you're choosing over 100 years of expertise, legacy, and trust.

SOLD AND DISTRIBUTED BY:

The Genuine. The Original.
