Choosing a Door

What to consider when selecting a door

Style
Whether your home is classic or contemporary, we offer styles to best complement your home’s architecture. For a distinctive, custom look, choose insulated doors from our elegant Courtyard Collection®, Thermacore® Collection, Impression Collection® or the custom fine wood doors of the Signature® Carriage Collection.

Safety
Our Impression Collection® doors provide peace of mind with pinch-resistant panels that help protect fingers. If you live in an area that is prone to high winds, ordered with the appropriate wind load options, our WindStorm™ doors provide reliable protection against high wind damage and offer fine craftsmanship, durability and style.

Comfort
If you live in a climate with extreme hot or cold temperatures, we recommend a well-insulated, thermally-efficient door to ensure your comfort. Some of our insulated doors, including the Courtyard Collection® and Thermacore® Collection, also feature a steel backing that lends a finished, clean look to your garage’s interior.
Signature® Carriage Wood doors combine the classic swing-open appearance and detailing of carriage house wood doors with the convenience of sectional garage doors.

Panel styles

Doors provided in unfinished, stain-grade or paint-grade wood. Models are available with or without windows and with square or arched tops. Square tops are shown.

Parson Collection

- Drake Narrow (570 DN)
- Holden Narrow (581 N)
- Kingston Narrow (571 N)

**Glass types**

Clear glass comes standard with this product. Additional glass options are available, including 1/8” tempered and 1/8” double strength (DSB). Contact your local Overhead Door™ Distributor for more details.
**Raised panel Model 454**

1 Door Sections are constructed of 1-3/8” thick finger-jointed wood rails and stiles; with solid stain-grade rails and stiles as an option.

2 Raised Panels are constructed of 3/4” solid wood; edge-glued panels.

**Recessed panel Model 450 & 453**

1 Recessed Panels are constructed of 1 3/8” high quality West Coast Hemlock.

3 Center of Recessed Panel is constructed of durable, ¼” exterior-grade hardboard.

Mortise and tenon joints are glued and steel-pinned for increased strength and durability.

Shiplap section design provides weather-tight fit and smooth operation.

Rust resistant track and hardware are constructed of hot-dipped galvanized steel.

Backed by **one year limited warranty**.

Colors
Actual colors may vary from brochure due to fluctuations in the printing process. Always request a color sample from your Overhead Door™ Distributor for accurate color matching.

- Glacier White
- Cape Cod Gray
- Monterey Sand
- Adobe Cream

Window styles
Insulated windows are available.

- Clear
- Cathedral
- Ruston
- Stockton
- Williamsburg
- 4-piece Williamsburg
- 8-piece Williamsburg

Glass types
Satin etched privacy glass is available with three styles of etching.

- Clear Double Strength (DSB)
- Obscure
- Eclipse
- Diamond
- Prairie
Bonded steel, polyurethane and vinyl
They provide incredible strength, impressive sound absorption and energy efficiency with an R-value* of up to 11.75.

Deep raised panels
Rich wood grain texture for the timeless look of freshly painted hardwood. Available in standard panel style only.

Through-and-through color PVC construction
The color goes all the way through the exterior vinyl skin so scratches are minimized.

UV-resistant resin
Contains special polymers that protect your door from the sun’s harmful ultraviolet rays.

Twin structural struts
22-gauge steel C-channels run the full length of each panel and are anchored to interior steel stiles for strength.

*Overhead Door Corporation uses a calculated door section R-value for our insulated doors.
Traditional Steel Collection

Our Traditional Steel Collection garage doors offer three model options to choose from, each uniquely designed to provide lasting performance and durability.

Panel styles
Our Traditional Steel Collection doors feature a simulated wood grain embossment to enhance the appearance of your door. Choose from standard, long or V5 panel.

Models 170/173/180/183
Standard (S)

Models 171/174/181/184
Long (L)

Models 175/176/185/186
V5 (V)

White
Almond
Desert Tan
Taupe/Sandstone*
Brown

*Called sandstone on Models 391 and 399.

Window styles
For the full selection of windows for Traditional Steel doors please see page 37.

Glass types
Clear glass is standard. Optional glass include:

• Solar Bronze (model 391)
• High velocity glass (170/180 Series and model 391)
• Insulated glass (model 391)
• Obscure glass
Embossed wood grain texture
Adds beauty, sophistication and durability.

Reinforced door construction
For maximum strength, durability and minimal weight.

Durable finish
Hot-dipped galvanized steel with two coats of baked-on polyester paint.

Bulb-type bottom weatherseal
Guards against wind and rain while providing a cushion when closing.

S - Standard panel, L - Long panel, V - V5 panel

4 Polystyrene insulation: Refers to insulation for improved energy efficiency and sound reduction.
4 R-value: The higher the R-value, the greater the insulating properties.
4 Heavy-duty steel: A thicker, more durable and dent-resistant option, designed to withstand additional knocks and bumps from outdoor activity.
4 Backing: Vinyl – For a clean, more finished look and added sound absorption. Steel – Interior-side steel backing for strength and finished appearance.
WindStorm™

Wind load-rated system for garage doors

Reliable protection against high winds and wind-borne debris

As the largest point of entry into your home, your garage door can be a point of failure during a high wind event and create the potential for debris and high-pressure damage within your home. That’s why when high winds hit, a reinforced garage door is one of your home’s – and your family’s – most important safeguards against nature’s fury. Our WindStorm™ rated doors not only provide reliable protection against high wind damage, but also feature fine craftsmanship, trouble-free performance, lasting durability and eye-catching curb appeal.

*Wind load and impact resistance requirements vary by region. Please contact your local Overhead Door™ Distributor for more information.

Designed for strength and stability

- Stringently tested to meet wind load requirements*
- Optional impact rating on select door models
- Reinforced hardware throughout door
- Additional horizontal bracing for further reinforcement
- Optional impact rated glass for additional safety and protection
- Insulated door system designs provide energy efficiencies
- Various door system designs to meet door size requirements, wind zone, exposure categories as well as aesthetics

*Wind load and impact resistance requirements vary by region. Please contact your local Overhead Door™ Distributor for more information.
