Choosing a Door

What to consider when selecting a door

Style
Whether your home is classic or contemporary, we offer styles to best complement your home’s architecture. For a distinctive, custom look, choose insulated doors from our elegant Courtyard Collection®, Thermacore® Collection, Impression Collection® or the custom fine wood doors of the Signature® Carriage Collection.

Safety
Our Impression Collection® doors provide peace of mind with pinch-resistant panels that help protect fingers. If you live in an area that is prone to high winds, ordered with the appropriate wind load options, our WindStorm™ doors provide reliable protection against high wind damage and offer fine craftsmanship, durability and style.

Comfort
If you live in a climate with extreme hot or cold temperatures, we recommend a well-insulated, thermally-efficient door to ensure your comfort. Some of our insulated doors, including the Courtyard Collection® and Thermacore® Collection, also feature a steel backing that lends a finished, clean look to your garage’s interior.
Signature® Carriage Wood

Premium wood garage doors

Signature® Carriage Wood doors combine the classic swing-open appearance and detailing of carriage house wood doors with the convenience of sectional garage doors.

Panel styles
Doors provided in unfinished, stain-grade or paint-grade wood. Models are available with or without windows and with square or arched tops. Square tops are shown.

Bulb-type bottom weatherseal guards against wind and rain while providing a cushion when closing.

For specific wind load information please see page 28.
With their rugged, thick vinyl skin, Durafirm Collection® 870 Series doors provide incredible strength and durability.

Panel styles
Doors are available in 7’ or 8’ height. Shown in 7’.

Model 870
- Model 870 Standard

Model 872
- Model 872 VS

Colors
Actual colors may vary from brochure due to fluctuations in the printing process. Always request a color sample from your Overhead Door™ Distributor for accurate color matching.

- Glacier White
- Cape Cod Gray
- Monterey Sand
- Adobe Cream

Window styles
Insulated windows are available.

- Clear
- Cathedral
- Ruston
- Stockton
- Williamsburg
- 4-piece Williamsburg
- 8-piece Williamsburg

Glass types
Satin etched privacy glass is available with three styles of etching.

- Clear Double Strength (DSB)
- Obscure
- Eclipse
- Diamond
- Prairie
Bonded steel, polyurethane and vinyl
They provide incredible strength, impressive sound absorption and energy efficiency with an R-value* of up to 11.75.

Deep raised panels
Rich wood grain texture for the timeless look of freshly painted hardwood. Available in standard panel style only.

Through-and-through color PVC construction
The color goes all the way through the exterior vinyl skin so scratches are minimized.

UV-resistant resin
Contains special polymers that protect your door from the sun’s harmful ultraviolet rays.

Twin structural struts
22-gauge steel C-channels run the full length of each panel and are anchored to interior steel stiles for strength.

*Overhead Door Corporation uses a calculated door section R-value for our insulated doors.
Our Traditional Steel Collection garage doors offer three model options to choose from, each uniquely designed to provide lasting performance and durability.

**Panel styles**
Our Traditional Steel Collection doors feature a simulated wood grain embossment to enhance the appearance of your door. Choose from standard, long or V5 panel.

S - Standard panel, L - Long panel, V - V5 panel

⁴ Polystyrene insulation: Refers to insulation for improved energy efficiency and sound reduction.
⁵ R-value: The higher the R-value, the greater the insulating properties.
⁶ Heavy-duty steel: A thicker, more durable and dent-resistant option, designed to withstand additional knocks and bumps from outdoor activity.
⁷ Backing: Vinyl – For a clean, more finished look and added sound absorption. Steel – Interior-side steel backing for strength and finished appearance.
WindStorm™

Wind load-rated system for garage doors

Reliable protection against high winds and wind-borne debris

As the largest point of entry into your home, your garage door can be a point of failure during a high wind event and create the potential for debris and high-pressure damage within your home. That’s why when high winds hit, a reinforced garage door is one of your home’s – and your family’s – most important safeguards against nature’s fury. Our WindStorm™ rated doors not only provide reliable protection against high wind damage, but also feature fine craftsmanship, trouble-free performance, lasting durability and eye-catching curb appeal.

Designed for strength and stability

- Stringently tested to meet wind load requirements*
- Optional impact rating on select door models
- Reinforced hardware throughout door
- Additional horizontal bracing for further reinforcement
- Optional impact rated glass for additional safety and protection
- Insulated door system designs provide energy efficiencies
- Various door system designs to meet door size requirements, wind zone, exposure categories as well as aesthetics

*Wind load and impact resistance requirements vary by region. Please contact your local Overhead Door™ Distributor for more information.
