Choosing a Door

What to consider when selecting a door

Style
Whether your home is classic or contemporary, we offer styles to best complement your home’s architecture. For a distinctive, custom look, choose insulated doors from our elegant Courtyard Collection®, Thermacore® Collection, Impression Fiberglass Collection® or the custom fine wood doors of the Signature® Carriage Collection.

Safety
Our Impression Fiberglass Collection® doors provide peace of mind with pinch-resistant panels that help protect fingers. If you live in an area that is prone to high winds, ordered with the appropriate wind load options, our WindStorm™ doors provide reliable protection against high wind damage and offer fine craftsmanship, durability and style.

Comfort
If you live in a climate with extreme hot or cold temperatures, we recommend a well-insulated, thermally-efficient door to ensure your comfort. Some of our insulated doors, including the Courtyard Collection® and Thermacore® Collection, also feature a steel backing that lends a finished, clean look to your garage’s interior.

Courtyard Collection, Model 7520, X panel (167T), Brown finish, Stockbridge windows, decorative hardware
Panel styles
Doors provided in unfinished, stain-grade or paint-grade wood. Models are available with or without windows and with square or arched tops.

Glass types

Clear glass comes standard with this product. Additional glass options are available, including 1/8” tempered and 1/8” double strength (DSB). Contact your local Overhead Door™ Distributor for more details.
Raised panel Model 3260

- 1 Door Sections are constructed of 1-1/8" thick finger-jointed wood rails and stiles; with solid stain-grade rails and stiles as an option.
- 2 Raised Panels are constructed of ¾" solid wood; edge-glued panels.

1 Recessed Panels are constructed of 1-1/8” high quality West Coast Hemlock.
3 Center of Recessed Panel is constructed of durable, ¼” exterior-grade hardboard.

Mortise and tenon joints are glued and steel-pinned for increased strength and durability.

Shiplap section design provides weather-tight fit and smooth operation.

Rust resistant track and hardware are constructed of hot-dipped galvanized steel.

- Diamond
- Prairie
Bonded steel, polyurethane and vinyl
Provide incredible strength, impressive sound absorption and energy efficiency with an R-value* of up to 11.75.

Deep raised panels
Rich wood grain texture for the timeless look of freshly painted hardwood. Available in standard panel style only.

Through-and-through color PVC construction
Color goes all the way through the exterior vinyl skin so scratches are minimized.

UV-resistant resin
Contains special polymers that protect your door from the sun’s harmful ultraviolet rays.

Twin structural struts
22-gauge steel C-channels run the full length of each panel and are anchored to interior steel stiles for strength.

*Overhead Door Corporation uses a calculated door section R-value for our insulated doors.
Panel styles

Our Traditional Steel Collection doors feature a wood grain embossment to enhance the appearance of your door. Choose from Standard, Long or Vertical Short panels.

Colors

Actual door colors may vary from brochure photos due to fluctuations in the printing process. Always request a color sample from your Overhead Door™ Distributor for accurate color matching before ordering your door.

Standard finishes

- White
- Almond
- Desert Tan
- Taupe/Sandstone*
- Brown

Textured wood grain finishes**

- Walnut
- Mission Oak

* Called Sandstone on Model 1600.
** Not available on Model 1600. Features a uni-directional pattern.

Window styles

For the full selection of windows for Traditional Steel doors please see page 37.

Glass types

Optional glass include:
- Solar Bronze – Model 1600 (SP)
- High velocity glass – not available on Model 1600 (LP)
- Insulated glass – Model 1600 (SP)
Embossed wood grain texture
Adds beauty, sophistication and durability.

Reinforced door construction
For maximum strength, durability and minimal weight.

Durable finish
Hot-dipped galvanized steel with two coats of baked-on polyester paint.

Bulb-type bottom weatherseal
Guards against wind and rain while providing a cushion when closing.

* Polystyrene insulation: Refers to insulation for improved energy efficiency and sound reduction.
** R-value: The higher the R-value, the greater the insulating properties.
§ Heavy-duty steel: A thicker, more durable and dent-resistant option, designed to withstand additional knocks and bumps from outdoor activity.
† Backing: Vinyl – For a clean, more finished look and added sound absorption.
    Steel – Interior-side steel backing for strength and finished appearance.
Our WindStorm™ rated doors not only provide reliable protection against high wind damage, but also feature fine craftsmanship, trouble-free performance, lasting durability and eye-catching curb appeal.
