

**The Genuine. The Original.**

**Overhead Door™ Brand Launches New Legacy® 850 Garage Door Opener Models with Integrated LED Lighting**

*Models 2129L and 2129BL will offer homeowners energy-efficient, aesthetically-pleasing light and a maintenance-free operating experience*

**March 20, 2023** - Overhead Door™ Brand, a leading manufacturer of residential and commercial door solutions, is expanding the Legacy 850® family of 24V operators with the addition of Models 2129L and 2129BL. Offering LED lighting that is 25,000-hour rated, these models provide energy-efficient, aesthetically-pleasing light and a low-maintenance experience. Unlike many other LEDs, these are frequency-tuned not to interfere with transmitter range. Models 2129L and 2129BL come standard with integrated OHD Anywhere® Wi-Fi and smartphone control capabilities, as well as battery backup for Model 2129BL for further peace of mind.

Implementing LED lighting, whether that be in the garage or throughout the entire home, provides unparalleled benefits for longevity, environmental impact, energy efficiency and brightness. The new, trouble-free operators offer all the same features of the existing Legacy 850® models, such as the powerful, high-performing 24V DC motor with variable speed for soft start and stop— providing smooth, quiet operation and helping increase the life of the garage door opener.

Overhead Door™ Brand operators are compatible with the universal preassembled rails and pre-tensioned chain or belt in sizes up to 10 feet, minimize wear on tracks and offer the same easy set-up and programming that has made the entire OHD residential line-up so popular.

(more)

Models 2129L/BL also provide leading-edge security and innovative home technology with patented auto-seek dual frequency technology, a self-diagnostic Safe-T-Beam® System, CodeDodger® Access Security System and the ability to connect the opener to HomeLink® and Car2U® systems for even more convenience.
