## OVERHEAD DOOR INTRODUCES THE LEGACY® 920 GARAGE DOOR OPENER

*Company's Latest Opener Offers Homeowners Peace of Mind with Battery Back-Up*

LEWISVILLE, Texas (Nov. 8, 2016) — Overhead Door, the originator of the upward lifting garage door and the first electronic garage door opener, has introduced its latest garage door opener for homeowners, the Legacy® 920. The new opener provides durable and quiet operation in both belt and chain drive options, a 6 foot power cord, and is compatible with residential sectional doors up to 10 feet high. Additionally, homeowners can select a variety of convenience options, such as Battery Back-Up, which provides reliable garage door operation in the event of a power outage.

The standard safety and security features that come with the opener include the Safe-T Beam® non-contact reversing system, Code Dodger® access security and a new design with two lights providing light for the entire garage. The Legacy® 920 is also compatible with the OHD Anywhere™ smart phone device and Overhead Door's new LED light bulbs.

"We're excited to offer homeowners a garage door opener that is not only quiet and reliable but comes with a variety of options to provide convenience and customization," said Heather Meiner, brand manager for Overhead Door. "A garage door opens on average four times a day, so it is important that we're able to provide our busy customers with an opener that will make their lives easier."

### **About Overhead Door Corporation**

Overhead Door Corporation, based in Dallas, Texas, is a leading manufacturer of doors and openers for residential, commercial, industrial and transportation applications. The company has five divisions: Access Systems Division (ASD), which features the Overhead Door and Wayne Dalton brands; The Genie Company, manufacturer of remote-controlled garage door opening systems; Horton Automatics, a manufacturer of automatic entrance systems; TODCO, the largest producer of truck doors for the transportation industry; and Creative Door Services, western Canada's leader in providing door products and services to the residential, commercial and industrial markets. Overhead Door Corporation created the original overhead garage door in 1921 and the first electric garage door opener in 1926. Overhead Door now employs more than 3,500 people, has 22 manufacturing facilities, 78 regional sales and service and installation centers and more than 5,000 distributors and dealers that service national builders, national accounts, architects, general contractors and homeowners, as well as major retailers in the U.S. and Canada. Overhead Door Corporation is a subsidiary of Sanwa Holdings Corporation of Tokyo, Japan.
