Thermacore® COLLECTION

WINDSTORM™ WIND LOAD-RATED GARAGE DOORS

Model 903  7' high, V5 panel, Golden Oak finish, Arched Stockton windows

SERIES 5745 & 5765

Premium insulated garage doors designed for both beauty and strength to help protect your home against the damaging effects of hurricane force winds.

- Stringently tested to meet Texas Department of Insurance (TDI) and Florida Building Code (FBC) requirements, and have Miami-Dade approvals for use in Florida’s High Velocity Hurricane Zone (HVHZ).
- Impact resistant.
- Reinforced hardware throughout the door – for a true wind load-rated system.
- Strength, durability and thermal efficiency – with Thermacore® construction providing a continuous layer of foamed-in-place CFC free polyurethane insulation between two layers of corrosion-resistant steel.
- In-between section thermal seals – snug-fitting tongue-and-groove section joints reduces wind and weather from entering the garage.
- Heavy gauge steel end caps for better appearance, improved strength and to protect the insulation from damage.
- Bulb-type bottom weatherseal guards against wind and rain while providing a cushion when closing.

The Genuine. The Original.
Choose a panel style:

- Models 901, 906: Standard (SP)
- Models 903, 908: V5 (V5)
- Models 904: V10
- Models 902, 907: Long (LP)
- Models 905, 909: Flush (FP)

Choose a color:

- White
- Almond
- Taupe
- Terra Bronze
- Brown
- Black

Optional stucco embossed wood grain finishes (903, 904 and 908)

- Golden Oak
- Walnut
- Mission Oak

Actual colors may vary from brochure due to fluctuations in the printing process. Always request a color sample from your Overhead Door™ Distributor for accurate color matching.

Thermacore® Collection Series 5745 & 5765

Select your panel style and color

Models | Series | Thickness | Polyurethane insulation | R-value* | Steel backing** | Warranty
--- | --- | --- | --- | --- | --- | ---
901-905 | 5745 | 1 3/4" | • | 12.12 | • | Limited lifetime
906-909 | 5765 | 1 3/4" | • | 16.22 | • | Limited lifetime

* R-value: Overhead Door Corporation uses a calculated door section R-value for our insulated doors. The higher the R-value, the greater the insulating properties.

** Backing: Steel – Interior-side steel backing for strength and finished appearance.
Choose a window style:

¹ Above wind speeds based on ASCE 7-05 are applicable for enclosed structures with an importance factor of 1.0, mean roof height of 30’, and assume a maximum of 2’ of the door is located within the end zone of a structure. The above wind speeds listed as a guide only. Wind speed is only one of many factors that determine the design pressure on a structure. Wind load drawings available upon request. SP - Standard panel windows, LP - Long panel windows

Limited Warranty.
Thermacore® Collection garage doors are backed by up to a limited lifetime non-transferable warranty.*

* Warranties vary by model, and are available upon request. See full text of warranty for details.

The Genuine. The Original.
Since 1921, Overhead Door Corporation has not only raised the standards of excellence for the industry – we’ve created them. We created the first sectional garage door in 1921 and the first electric garage door opener in 1926.

Today, our network of over 400 Overhead Door™ Distributors are still leading the way with innovative solutions and unmatched installation, service and support. So look for the Red Ribbon. It’s your guarantee that you’re getting the genuine, the original Overhead Door™ products and services.
