CODEDODGER® 2 MODE OF TRANSMISSION

SECTION 1 BASIC PROGRAMMING FOR ONE CODEDODGER® OPENER

FOR CONVENIENCE
Program Keypad BEFORE mounting.

STEP 1: CREATING YOUR WIRELESS KEYPAD PIN (PERSONAL IDENTIFICATION NUMBER)
- Press in order 1 2 3.
- Enter your PIN (3 to 8 characters).
- Press =.
- Close keypad cover and wait 30 seconds.

STEP 2: PROGRAMMING SINGLE DOOR OPENER
Press and hold until both LEDs turn BLUE.

STEP 3: OPERATING ONE DOOR OPENER
A To open or close the Garage Door:
- Enter your PIN.
- Press =.

NOTE
- If the Door does not move, check the LED on Keypad. If the LED is blinking rapidly, the PIN was entered incorrectly. After the LED stops blinking re-enter your PIN and try again.
- Any Key Button will control the Door for 30 seconds after the Door starts moving.
- Rapid blinking of the red LED indicates an error. After a few seconds the LED will turn off. Start over.

Proceed to Section 3 - Mounting Instructions.

SECTION 2 PROGRAMMING FOR MULTIPLE DOOR CODEDODGER® OPENERS

FOR CONVENIENCE
Program Keypad BEFORE mounting.

STEP 1: CREATING YOUR WIRELESS KEYPAD PIN (PERSONAL IDENTIFICATION NUMBER)
- Press in order 1 2 3.
- Enter your PIN (3 to 8 characters).
- Press =.
- Press the number of Doors (total) you wish to control (1 or 2).
- Press =.

On your opener’s power head:
- Select first opener and press and hold until both LEDs turn BLUE.
- Release button. Only round LED will be BLUE.
- Press and release again. LED’s should blink PURPLE.

STEP 2: PROGRAMMING MULTIPLE DOOR OPENERS
All Door Openers will use the same PIN.
On your keypad:
- Enter your PIN and press =.
- Press the number of Doors (total) you wish to control (1 or 2).
- Press =.

On your opener’s power head:
- Select first opener and press and hold until both LEDs turn BLUE.
- Release button. Only round LED will be BLUE.
- Press and release again. LED’s should blink PURPLE.

Decide which Door will be Door #1, #2 and #3.
On your Wireless Keypad:
- Enter PIN and press =.
- Press the number that you have picked for this Door.
- Press =.
- Repeat procedure below dotted line for remaining openers.

Wait until Keypad Backlight turns off (approximately 30 seconds).

SECTION 3 MOUNTING INSTRUCTIONS

The Keypad must be mounted in sight of the Door(s), at least 5 feet above the ground and clear of any moving Door parts.

A Mount Keypad (Mounting screws located inside Battery Compartment.)
- Remove Battery Cover and batteries. (See Figure 3).
- Drill a 1/4” pilot hole for the mounting screw. (See Figure 2.)
- Screw the Keypad to the wall.
- Close the Door.
- Open the Door using the Keypad.
- Install Batteries and Cover.

SECTION 4 ADDITIONAL OPERATIONS

CHANGING YOUR PIN
- Enter your current PIN and press =.
- Enter your NEW PIN and press =.

USING A TEMPORARY PIN
A temporary PIN allows access to your home by repair persons, meter readers, etc. if you so desire.
- Enter your current PIN and press =.
- Press the TEMPORARY PIN and press =.

NOTE
- DO NOT reprogram the Door Opener(s).
- Temporary PIN remains active only until the next time your normal PIN is entered.

FORGET YOUR PIN (RESETTING WIRELESS KEYPAD)
If you have forgotten your PIN or you fear it may have fallen into unauthorized hands, you must erase the old programming.
- Press and hold =.
- While holding down press and hold = for 5 seconds.
- Release both buttons. You must now start from the beginning and reprogram your Wireless Keypad.

CHANGING BATTERY
- If the Keypad backlight does not come on, this indicates the need to replace the batteries.
- Press in on the front of the battery cover and slide it down off of the Keypad.
- Remove used batteries and replace with "AAA". Make sure the batteries are inserted properly using the polarity markings.
- No programming is lost during replacement of batteries.

Backlit Keypad for Easy of Use at Night

Battery Compartment 2 AAA Batteries (included)
OPERATING ONE DOOR OPENER

To open or close the Garage Door:

• Enter your PIN.
• Press .

NOTE

• If the Door does not move, check the red LED on Keypad. If the LED is blinking rapidly, the PIN was entered incorrectly. After the LED stops blinking, re-enter your PIN and try again.
• Any Keypad Button will control the Door for 30 seconds after the Door starts moving.

Proceed to Section 3 - Mounting Instructions.

CODEDODGER® 1 MODE OF CODE TRANSMISSION

This Wireless Keypad comes from the factory as an CodeDodger® 1 unit. In order to initially program an opener or openers which are CodeDodger® 1, you must switch the Keypad to CodeDodger® 1 mode:

• After entering your PIN, Press .
• Press and hold for two seconds and the GREEN LED above the number keys will turn RED.
• Close the keypad cover.
• Follow the instructions on this page for programming your CodeDodger® 1 opener(s).

Once all your doors have been programmed, there is no need to switch back and forth between CodeDodger® 2 modes. The Keypad will automatically remember the mode of each opener.

SECTION 1 BASIC PROGRAMMING FOR ONE DOOR CODEDODGER® OPENER FOR CONVENIENCE

Program Keypad BEFORE mounting.

STEP 1: CREATING YOUR WIRELESS KEYPAD PIN (PERSONAL IDENTIFICATION NUMBER)

• Press in order 3 1 2 7.
• Press .
• Enter your PIN (3 to 8 characters).
• Press .
• Close keypad cover and wait 30 seconds.

STEP 2: TEACHING PIN TO SINGLE OPENER

Find the Learn Code Button and Learn Code Indicator LED on your door opener.

• If your Door Opener has a black antenna wire and the serial number does not start with 10 or higher, the Learn Code Button and Indicator LED are located near the antenna. The light lens may need to be opened. If you use an external receiver, it may need to be opened to access the Learn Code Button and Indicator LED.
• If your Door Opener does not have an Antenna, you have an External Receiver. The External Receiver cover must be removed to access the Learn Code Button and Indicator LED.
• Press the Learn Code Button.
• Learn Code Indicator LED (on Opener) will blink.
• Enter your PIN and press on Keypad.
• Learn Code Indicator LED stays on.
• Press again.
• Learn Code Indicator LED turns off.
• Operator will run.

Wait until Keypad Backlight turns off (approximately 30 seconds).

STEP 3: OPERATING ONE DOOR OPENER

WARNING

A Moving Door can cause serious injury or death.

1 Keep people clear of opening while Door is moving.
2 Do Not allow children to play with Wireless Keypad.
3 Wall Control should be mounted within sight of door, at least 5 feet above floor and clear of moving parts.
4 During programming, the Door Opener could begin to run, so stay away from the moving Door and its parts.
To keep the Door from moving, close the Door and disconnect it from the Opener by pulling the Emergency Release Cord.

If Safety Reverse does not work properly:

1 Close Door and disconnect the opener using Emergency Release Cord.
2 Do not use Door Opener, Remote, or Wireless Keypad.
3 Refer to Door and Door Opener Owner’s Manuals before attempting any repairs.
