FOR IMMEDIATE RELEASE

Five Years Running, Overhead Door Awarded Top Garage Door Brand Among Women

LEWISVILLE, TEXAS (April 13, 2016) — Once again, Overhead Door Corporation has earned the Women’s Choice Award by WomenCertified® for America’s Most Recommended Garage Door brand. This award designation is based on a national survey of women who were asked to select the brands they would most likely recommend to others.

According to the Harvard Business Review and the Continuum’s Women and Children Research group, female consumers represent a powerful economic demographic, controlling 65 percent, or approximately $20 trillion annually, in global spending and more than 80 percent of US spending. In addition, 92 percent of consumers rely on recommendations from friends or family over any other form of advertising, according to a recent Nielsen report.

“We are honored to be a trusted and recommended brand choice among women for the fifth year in a row and we do not take the recognition lightly,” said Dennis Stone, president and CEO of Overhead Door Corporation. “Year after year, our Overhead Door ribbon distributor family has provided the expert service and solutions to their customers that has helped us earn the Women’s Choice Award and I thank them for their partnership and commitment to the brand.”

The Women’s Choice Award has set the standard for assisting consumers in making informed purchases by identifying brands that are most recommended and trusted by women. Those that deliver a customer experience worthy of recommendation are selected to win a Women’s Choice Award.

“As a long-standing recipient of the Women’s Choice Award, Overhead Door consistently demonstrates their commitment to their customers. Their focus on excellence and superior service is recognized by women consumers nationwide,” said Delia Passi, founder of the Women’s Choice Award. “Earning the award year after year, Overhead Door is a true leader in their industry and we couldn’t be prouder to call them a partner.”
